About

I am Junior front-end developer, total 1 year of experience, I have developed couple of modules in native JavaScript for private companies, also for Online retailers like Eliavaze LTD. At this moment I have ongoing project for small scale pre-build onlineshop where I have to develop designated modules, and make visual adjustments. I am proficient in skills like HTML, CSS and as of Less as intermediate, JavaScript/React, have knowledge of intermediate level of PHP, also have beginner level of C, LUA, Python 3.
